

# Secure Print-Management

## System

PRINTport is a secure Print-Management system for the enterprise

Organizations invest many millions of Dollars on cyber security systems to defend their assets, while printed documents disappear regularly from shared printers. Most of the thefts from enterprises are done in their premises, and the most common media is a standard printed- paper.

PRINTport comes to solve those issues, while saving the organization significant amounts of money.

PRINTport is a secure enterprise print management system.

PRINTport was designed for organizations that need a mechanism to control and secure print jobs on their public shared printers, and save money.

The control and secure needs, which PRINTport solves, are:

### User & Enterprises Benefit from Printport

#### Enhanced Security

PRINTport provides secure access to printed documents; users do not want others to see their printouts.

#### Billing

PRINTport provides organization the tools to bill individuals and departments on print usage. It can also provide the user with estimated cost of a print job prior to printing it.

#### Eliminate waste

PRINTport takes care of a common problem that organizations suffer from - multiple printing of the same print job, because the printout disappeared from the printer, or due to a print jam.

#### Efficiency

Users can concentrate all of their print jobs into their queue in the PRINTport Server, and release all, or part of them at the same time, while they are near the printer, and save valuable time.

**Prioritize print Queues** - Preferred users are able to receive their printout faster.

**Management** - Better management of enterprise printing resources and expenses.

Enhance Security

reseller in your area.

User sends print jobs from desktop to PRINTport Server using a basic "Print" command.

PRINTport is composed of a central server and distributed clients that are located as fixed devices near the printers. The PRINTport server is a Microsoft SQL based server that manages all the enterprise printing resources, all users, PRINTport clients, and provides billing information.

## Uniport Ltd. Experienced Supplier of Universal Messaging Technology to Enterprises

*an experienced, well-established supplier of enterprise fax and universal messaging solutions.
